

# Florida

## Legality

Kei trucks are able to be titled and registered in Florida. However, the Kei car may be marked as a miniature truck, which restricts the usage to streets with a posted speed of 35 mph or less, so ensure the DMV does not mark it as a mini truck.

Mini trucks are vehicles that can't go over 55 mph. You'll need to ensure that you argue that a Kei car can go 60 mph or more so it does not legally fit in the category of mini trucks or low-speed vehicles.

### Mini truck statute

To use the vehicle on roads, it will need to be marked as a pickup truck (PK title).

## Vehicle inspection

Cars 25 years and older are exempt from vehicle inspections in Florida.

### Law stating that 25 year or older cars are exempt

## Title and registration

In order to title and register an out of country vehicle, you will need to visit your local motor vehicle service center. The list below are the items you will need to bring:

- VIN Verification Form (HSMV 82042)
  - This form verifies the VIN and odometer on all vehicles being transferred to Florida from another country. **A Florida notary, a licensed Florida auto dealer, or a law enforcement officer in any state may complete the form.**
- Customs Entry Summary Form
- Form HS-7 Declaration Importation of Motor Vehicles
- Original certificate of title
- Translated title
- Bill of sale

- Proof of insurance
- A valid drivers license
